Subject: RE: POSTING -- PM ISA and FR notices
Attachments: HEROAccess_ExternaltoEPA_July2018.pdf

Jason,

The CASAC panelists will need to request access to HERO. Currently, only Sabine Lange is listed as a user. Attached is a set of instructions for HERO access for those external to EPA if that's helpful to pass along. Aaron Yeow should be listed as their EPA point of contact.

Let us know if you have any questions.

Thanks,

Jen

Hi Shane,

Please activate the public HERO site for the PM ISA.

Thanks!

Jason

Hi Shane,

The PM ISA will be released today. Once I get the go ahead can you flip the switch to activate the public HERO site for the ISA?

Thanks!
Jason

Hi Jason, this is great news! Keep HERO in the loop as well so we can make the PM Project Page live. Ryan, Jen, and I are in Cincinnati but Shane can flip the switch for us.
Steve

Subject: POSTING -- PM ISA and FR notices

Jason and Anna,

I had an exchange with John this weekend about this and would like to revise my thinking. Once John transmits to SAB DFO (Aaron Yeow), at that point we can post to NCEA website. So, please go ahead and coordinate with Maureen and Anna on this. Transmittal to CASAC via Aaron is technically public transmittal, so posting is OK.

Anna, I am going to delegate FR signatures to James Avery this morning. James can hopefully sign off on both and Taukecha can get them processed. But would you please keep an eye on the process for me?

Thanks all!

Tina

Subject: RE: FRN for IOAA Review/Signature - PM ISA

I'll take care of this now. Is the plan to post the ISA Monday even though the FR notice may take a little longer? I just need to let Maureen know on Monday.

Thanks!

Jason

PM has been signed off on! Jason – please work with Taukecha to get the FR posted, who will need the latest version of the FR. Bruce had minor comments, which I believe I've sent to you.

Subject: FRN for IOAA Review/Signature - PM ISA

Hi Megan,

Attached for IOAA review and signature is the FRN announcing the release of the "Integrated Science Assessment for Particulate Matter (External Review Draft)" for public comment and external peer review by the Science Advisory Board's Clean Air Scientific Advisory Committee (SAB-CASAC). As you recall, NCEA briefed IOAA and OAR senior leadership on August 7th on the upcoming release of the draft PM ISA. John Vandenberg also previously shared the pdf of the document and provided HERONet access to the underlying publications.

Attached is the FRN, FRN signature memo, the draft ISA, and the August 7th PowerPoint briefing. **If possible, it would be great to have this signed by next week.** Let me know if you have any questions.

Thanks,

Anna Champlin

Subject: Draft PM ISA

Thank you for the opportunity to brief you last week on the draft Integrated Science Assessment for Particulate Matter. I am providing an electronic copy of the draft ISA to you. The file is large, at 34 MB. Please let me know if you have any difficulty accessing the document.

This is a working draft and while the efforts to develop and review the text have been completed, we are still fixing some figures that are not printing correctly and making other minor revisions. We anticipate completing the production of the document by the end of August for transmittal to the CASAC DFO. The CASAC meeting to review this document has been scheduled for December 11-12, 2018.

The hotlinks to publications in the document are for the HERONet version, which is used by the CASAC peer reviewers to access the literature, including copyrighted materials. These links take you to the EPA

HERO Login page and may not work for you. Other links in the document, to tables, figures and sections, should work for you. We are checking the links as we prepare the document for release. The “public” version, which does not provide access to copyrighted material, is generated later.

Please let me know if you have any questions.

John
